KASHAF AFZAL

WEB DEVELOPER

PROFILE

Highly skilled and detail-oriented Frontend Web Developer with a passion for crafting visually appealing and user-friendly interfaces. Proficient in MongoDB, Express.js, React.js, and Node.js (MERN stack), I possess strong problem-solving abilities and a keen eye for design. I am dedicated to staying current with the latest web development trends and best practices. Eager to contribute to innovative projects, I strive to deliver high-quality web solutions that enhance user experiences.

WORK EXPERIENCE

GAOTek USA

Nov 2024 - Dec 2024

Team Lead For Web Dev Interns

- Led a web development team of WordPress interns, overseeing website projects from initial concept to final deployment.
- Managed project timelines and deliverables, ensuring that all tasks were completed on schedule and met quality standards.
- Provided guidance and mentorship to interns on best practices in WordPress development, including theme customization and plugin integration.

GaoTek USA

AUG 2024 - NOV 2024

Wordpress Intern

- Developed e-commerce sites with WooCommerce, enhancing user experience and checkout efficiency.
- Created responsive layouts using Elementor for seamless navigation across devices.
- Set up Contact Forms to boost user engagement and improve customer communication.

PROJECTS

Animal Welfare Website

- Led the development of the Hope For Paws platform, a MERN stack application focused on enhancing animal welfare collaboration.
- Implemented frontend features for adoption ads and a query posting system to engage users in animal welfare discussions.
- Developed backend functionalities to manage user interactions and provide access to information about NGOs and veterinary clinics.

Potfolio Website

- Developed a dynamic portfolio website using React.js, showcasing projects and skills in an interactive format.
- Included contact forms and interactive elements to facilitate user engagement and inquiries.

E-Commerce Website

- Developed a feature-rich e-commerce website using HTML, CSS, JavaScript, and PHP.
- Catered to personalized gift shopping experiences for customers.
